

- Compact Vacuum Transfer Systems
- ATEX-rated and Simple Quick-Clean
- Compressed Air Driven Technology
- Sanitary, Safe and Gentle
- Industrial, Food, Pharmaceutical Applications

- Aggregate, Frac Sand & Coal Experts
- Heavy Duty Gates / Diverters
- Truck & Railcar Loading Spouts
- Burner Isolation Valves, Airslides
- Mass Flow Feeders

- Rotary Point Level Indication
- SafePoint® Fail-safe Solutions
- SiloTrack Inventory Software
- Bluetooth and Cloud-Based Access
- SiloPatrol® On-Demand Level Indication

- Course to Fine Grinding
- Comil® Conical Mill
- FlexSift® Centrifugal Screener
- Scalable Lab System™

- Screw Conveyors & Screw Feeders
- Drag Conveyors
- Industrial Bucket Elevators
- Belt Conveyors, Pulleys, and Idlers

- Automatic Samplers
- Gravity and Pneumatic
- Cross Cut, Belt Sweep
- Automated Collection Systems

- Fisher Klosterman cyclone and venturi scrubber
- Flex-Kleen hi pressure/vacuum dust collector
- HEE-Duall wet scrubber
- CECO Filters candle filter mist elimination
- Adwest thermal oxidizer & catalytic oxidation

- Size Reduction Equipment
- Chilsonator® Roll Compaction
- Lab Grinding Mills
- Pharma Hammermills
- Scalable Lab System™

- Pneumatic Dense Phase Conveying Systems
- USDA and Sanitary 50-lb Bagger
- Moovinator Top or Horizontal Load Filter Receiver
- Dilute Phase Vacuum Conveying

- Torit Downflo® Evolution Dust Collectors
- PowerCore® Dust Collectors
- Dalamatic® Dust Collectors
- Filter Bags and Cartridges

- The world's fastest continuous motion vertical form fill seal packaging machine
- Intermittent motion VFFS bag-makers
- Premade pouch & stick pack machines
- Full line integration, carton/case packing, and robotic palletizing

- Pneumatic Conveying Systems
- Dedusters®
- Pellbow® Elbows
- Medium and High Pressure Rotary and Diverter Valves

- Parallel processing system for increased production and decreased downtime
- Cone Valve for auto discharge of challenging powders
- IBC Blender for Industrial powder mixing
- IBCs for the processing, storage, and transport of bulk material
- IBC based systems for filling, discharging, mixing, and cleaning

- Experts in pressure relief and explosion safety products & services
- Dust Hazard Analysis and Custom Engineered Solutions
- Full range of Passive, Flameless Venting and Chemical Suppression solutions
- NFPA Compliant Explosion Detection, Mitigation, and Isolation Systems

- High capacity, easy clean Compact Sieves for check-screening
- Round Separators for grading dry materials up to five fractions
- Compact 3in1 Bag Dump Station
- Ultrasonic Sieve deblinding system
- Rescreening Programs available

- Helix® Flexible Screw Conveyors
- Tubular Drag Conveyors
- Vacuum Conveyors
- Bulk Bag Fillers and Unloaders
- Bag Compactors & Dump Stations
- Autonomous Material Conveyor Systems

- High performance liquid mix components and systems
- High-shear mixing technology
- Low-shear, flow-type agitators
- In-line Mixing, powder wetting & dispersing, and Dixie Mixers
- Hydraulic Single & Multi-shaft Ram systems

**EFFECTOR  
FLEXTOR  
MADER**

- Heavy duty industrial dampers  
Wafer, diverter, slide gate, louver, poppet, radial vane, stack isolation
- Heavy duty industrial expansion joints  
Composite, non-metallic & metallic

- Rotary Sifters and Air Classifiers
- Rotary Airlock Feeders (NFPA-69 Compliant)
- Rotormills and Rotor Dryers
- Lump Breakers and Hammermills
- Fine Grinders and Air Classifying Mills
