

Acrison

- Volumetric & Gravimetric
- Weight-Loss-Differential Feeder
- Batch/Dump Weighing Systems
- Weigh Belt and Weigh Auger
- In-Line Weigh Feeder / Flowmeter
- Continuous Volumetric Blenders

- High performance liquid mix systems
- High-shear mixing technology
- Low-shear, flow-type agitators
- In-line Mixing, powder wetting and dispersing, and Dixie Mixers
- Hydraulic Single/Multi shaft Ram systems

- Pneumatic Conveying Systems
- Dedusters®
- Pellbow® Elbows
- Medium and High Pressure Rotary and Diverter Valves

HAPMAN

- Helix® Flexible Screw Conveyors
- Tubular Drag Conveyors
- Vacuum Conveyors
- Bulk Bag Fillers and Unloaders
- Bag Compactors & Dump Stations
- Autonomous Material Conveyor Systems

HaF

- Pneumatic Dense Phase Conveying Systems
- 50-lb Bagger for USDA and Sanitary Applications
- Moovinator Top or Horizontal Load Filter Receiver
- Dilute Phase Vacuum Conveying

- Rotary Sifters and Air Classifiers
- Rotary Airlock Feeders (NFPA-69 Compliant)
- Rotormills and Rotor Dryers
- Lump Breakers and Hammermills
- Fine Grinders & Air Classifying Mills

- Torit Downflo® Evolution Dust Collectors
- PowerCore® Dust Collectors
- Dalamatic® Dust Collectors
- Filter Bags & Cartridges

REMBE®

- Custom Engineered pressure relief & explosion safety products & services
- Dust Hazard Analysis
- Full range of Passive, Flameless Venting & Chemical Suppression
- Explosion Detection, Mitigation & Isolation Systems per NFPA

- Heavy duty industrial dampers
Wafer, diverter, slide gate, louver, poppet, radial vane, stack isolation
- Heavy duty industrial expansion joints
Composite, non-metallic & metallic

- The world's fastest continuous motion vertical form fill seal packaging machine
- Rugged, sanitary & compact intermittent motion VFFS bag-makers
- Premade pouch & stick pack machines
- Full line integration, carton/case packing, and robotic palletizing

- Parallel processing system for increased production & decreased downtime
- Cone Valve for controlled and automatic discharge of challenging powders
- IBC Blender for Industrial powder mixing
- IBCs for the processing, storage, and transport of bulk material
- IBC based systems for filling, discharging, mixing, and cleaning

APPROTEC RAN-LE (DALLAS)

2921 Brown Trail, Suite 260 | Bedford, TX 76021

- Compact Vacuum Transfer Systems
- ATEX-rated and Simple Quick-Clean
- Compressed Air Driven Technology
- Sanitary, Safe and Gentle
- Industrial, Food, Pharmaceutical Applications

- Aggregate, Frac Sand & Coal Experts
- Heavy Duty Gates / Diverters
- Truck & Railcar Loading Spouts
- Burner Isolation Valves, Airslides
- Mass Flow Feeders

- Rotary Point Level Indication
- SafePoint® Fail-safe Solutions
- SiloTrack Inventory Software
- Bluetooth and Cloud-Based Access
- SiloPatrol® On-Demand Level Indication

- Course to Fine Grinding
- Comil® Conical Mill
- FlexSift® Centrifugal Screener
- Scalable Lab System™

- Automatic Samplers
- Gravity and Pneumatic
- Cross Cut, Belt Sweep
- Automated Collection Systems

- Screw Conveyors & Screw Feeders
- Drag Conveyors
- Industrial Bucket Elevators
- Belt Conveyors, Pulleys & Idlers

- Industrial Vacuum Cleaners
- Wet & Dry Operation
- Mobile Vacuum Systems
- Central Vacuum Systems
- Truck Mounted Vacuums
- Vacuum Rebuilding Services

- Size Reduction Equipment
- Chilsonator® Roll Compaction
- Lab Grinding Mills
- Pharma Hammermills
- Scalable Lab System™

- High capacity, easy clean Compact Sieves for check-screening
- Round Separators for grading materials up to 5 fractions
- Compact 3in1 Sieve™ Bag Dump Station
- Ultrasonic Sieve deblinding system
- Rescreening Programs available

- Fisher Klosterman cyclone and venturi scrubber
- Flex-Kleen hi pressure/vacuum dust collector
- HEE-Duall wet scrubber
- CECO Filters candle filter mist elimination
- Adwest thermal oxidizer & catalytic oxidation
